Please select payment as friends and family to avoid extra payment fees

Or mail check to NYCS, PO. Box 164, Newtown, PA 18940

Summer Courses Offered

- **Introduction to Python**
Welcome to the Introduction to Python class!
This year we will be providing an introductory python class to students who have little to no experience with the python language, or programming in general. This class is meant to help build basic skills in programming, which will serve as a foundation of later coding. (for Age 10 to 13)
- **English Reading and Writing**
Students will learn about the importance of speeches and rhetorical techniques. They will learn the basics of rhetoric analysis and how to critically evaluate the effectiveness of written and spoken communication. Students will also learn how to write effective persuasive speeches.
Students will be able to practice their critical reading, writing, and speaking skills.
Younger students will especially benefit from early rhetorical/speech-writing lessons: these lessons will help them build their confidence and mastery of the language arts/English. They will be able to communicate more effectively, which is valuable not just for English classes, but for all aspects of their education. (for 10-14 yr)
- **Learn Chinese Through Drawing**
Teacher with many years of experience will provide an interesting learning environment for children. The goal is keeping young students interested and focused on learning Chinese by introducing different fun ways to learn. One example is to learn through fun drawings. Looking to help young children gain new knowledge through a relaxing environment. (for 5-8 yr)
- **Chinese Pinyin Course**
Hanyu Pinyin or normally abbreviated to Pinyin is used to teach Chinese Mandarin. Pinyin is also the starting point to learn Chinese. Students taking this class will learn the correct way to pronounce Chinese characters through this 6-week class. (for 5-8 yr)
- **Introduction of Scratch**
Welcome to the Introduction to Scratch class! This class is for students who have little to no experience with Scratch. This class will help you learn the basics of Scratch, giving you more opportunities to make epic projects! (for 8-12 yr)
